Sir:

Applicants' attorney requests correction of the Filing Receipt mailed August 11, 2004 for the above identified application. Please delete the entire section entitled "Assignment For Published Patent Application." A copy of the marked-up Filing Receipt showing the requested correction is enclosed. The "Assignment For Published Patent Application" incorrectly states that the Assignee is "D-Wave Systems, Inc., Vancouver, Canada." This is due to the fact that the Application Data Sheet originally submitted with the application incorrectly had an Assignee Information section with this erroneous information. Applicants submit herewith a Supplemental Application Data Sheet with the Assignee Information section shown as deleted by strikethrough.

Applicants further respectfully request that the United States Patent and Trademark Office correct its records in accordance with the present submission and issue a corrected filing receipt for the above-identified provisional patent application.

It is estimated that no fee is required for correction of the Filing Receipt. However, should the Patent Office determine otherwise, please charge the necessary fee to Jones Day Deposit Account No. 503013. A duplicate of this sheet is enclosed for accounting purposes.

Respectfully Submitted,

**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
